

2016

Lakeside Children's Academy has been like a second home for all 3 of our children over the past 8 years. The teachers and staff truly care about each child! I always feel like I can talk to any one of them about questions or concerns that I may have. I regularly see teachers going the extra mile to clean and sanitize the classrooms to help keep our little ones healthy. We also love the fresh, healthy menu options! When it was time for me to return to work after having our third child, we couldn't have imagined taking him anywhere else. Despite the fact that we now live about 25 minutes away, I gladly add the extra time to my commute so that he is somewhere that we trust!

Thanks! 😊
